CENTRAL SUPPLIER DATABASE

National Treasury indicated during 2015 the development and future use of the Central Supplier Database (CSD) as a way of simplifying the process of doing business with government.

As **Casidra** is an implementing agency of the sole shareholder, The Provincial Government of the Western Cape (PGWC) and as such is listed as a Schedule 3D Public Entity (Provincial business entity) in terms of the Public Finance Management Act (PFMA). **Casidra** have to comply with the regulations stipulated.

The CSD will be the source of all supplier information for all organs of state. The CSD will reduce the exchange of compliance documents in paper form, eliminate multiple registrations with different organs of state and ultimately reduce the cost for both business and government by enabling electronic registration and verification process.

The CSD will interface with SARS to verify tax clearance certificates and the Companies and Intellectual Property Commission (CIPC) for business registration and business ownership information. The CSD will furthermore verify supplier information with the register for tender defaulters and database of restricted suppliers. (Please see Fact Sheet and CSD pamphlets.)

From 1 September 2015 prospective suppliers should self-register on the CSD website www.csd.gov.za. Apart from registering and capturing supplier information on the CSD, suppliers currently on any database of organs of state need to maintain their records through the existing supplier systems for the period 1 September 2015 to 31 March 2016. This period will be referred to as the Interim Period. During the Interim Period suppliers that register on the CSD must provide their CSD supplier number and unique security code that will be communicated to them as well as any other relevant documentation (not yet electronically verified by the CSD) to the organs of state they want to do business with. **Casidra** urges all their suppliers to please comply with the request.

During the transitional period until 31 March 2016 **Casidra** will migrate our current supplier database to CSD to ensure accuracy and validation of information prior to mandatory implementation of the database. We would like to thank all our suppliers in advance for their cooperation.

For more information please contact National Treasury ocpo.treasury.gov.za (http://ocpo.treasury.gov.za/Suppliers_Area/Pages/Central-Supplier-Database.aspx) or [Central Supplier Database for Government](https://secure.csd.gov.za/) (<https://secure.csd.gov.za/>).

INTRODUCTION

Currently no single consolidated comprehensive supplier database exists for national, provincial or local government causing duplication and fragmentation of supplier information across spheres of government. In addition, information related to the compliance requirements are duplicated during procurement processes, processing of payments and audit procedures, which are all examples of financial management activities dependent on supplier information.

The establishment of a Central Supplier Database will result in one single database to serve as the source of all supplier information for all spheres of government. The purpose of centralising government's supplier database is to reduce duplication of effort and cost for both supplier and government while enabling electronic procurement processes.

WHAT HAPPENS ON 1 SEPTEMBER 2015

From 1 September 2015 prospective suppliers will be able to self-register on the CSD website www.csd.gov.za. Suppliers can capture and update their information on the CSD at any time, in preparation for the utilisation of supplier data through procurement and financial systems used by all organs of state from 1 April 2016. The period from 1 September 2015 to 31 March 2016, will be referred to as the Interim Period.

Once information has been verified with external data sources, a unique supplier number and security code will be allocated and communicated to the supplier. Suppliers will be required to keep their data updated regularly and should confirm at least once a year that their data is still current and updated. Automatic re-verification of relevant supplier data against SARS, CIPC etc. will be done regularly (daily, weekly, monthly, etc.) as required.

Suppliers will be required to select their industry classification as well as the commodities they supply per locations. Automated distribution of supplier information to organs of state will be done based on supplier type, supplier location, B-BBEE and commodities information.

Existing supplier databases will stay in force until supplier data have been migrated to the CSD.

Supplier databases currently maintained by organs of state will be migrated to the CSD from 1 September 2015. Communication will be provided to a supplier requesting validation of information once migration is complete.

HOW WILL THE INTERIM PERIOD WORK?

Apart from registering and capturing supplier information on the CSD, suppliers currently on any database of organs of state need to maintain their records through the current supplier systems for the period 1 September 2015 to 31 March 2016.
