Our ability and skills, ground level involvement in communities, proven track record and sound financial record-keeping, reporting and auditing make **Casidra** the preferred implementing agent.

**Casidra’s** approach to rural development is holistic and multi-sectoral, focusing on improving the social and economic well-being of rural people. The type of community development projects implemented varies, but are all aimed at alleviating poverty, stimulating broad-based economic growth and unlocking the human resources and capacity in rural communities. This approach is based upon community-driven endeavours which facilitate economic empowerment and sustainability, and ultimately help to establish self-sufficient communities.

The organisation is funded by the Western Cape Government, but recognises further that closer private sector involvement will benefit not only development in rural areas, but also the economic empowerment and tourism potential of the Western Cape as a whole.
